

Nibor compliance committee

The Nibor compliance committee is established to make sure that Nibor reflects the best estimate of market interest rates and has credibility as a benchmark. The compliance committee shall be composed of representatives from both panel banks and independent entities/institutions that are regarded as having an interest in, and a good knowledge of, how the Norwegian interbank market functions.

The panelbanks' representatives must not be in the majority on the committee. The members of the compliance committee are appointed by the board of Norske Finansielle Referanser AS (NoRe), for a period of two years with the possibility of reelection.

A member of the compliance committee may not also be a member of the Nibor steering group.
